It was an exhausting day today. We continue to work hard to keep our employees safe. Things are peaceful at this point. We still have to be on alert. There is still a lot of activity to monitor and pay attention to.

Here are some pictures of Loring Station, the Main Post Office and Downtown businesses. Not how I ever envisioned our post office or town.

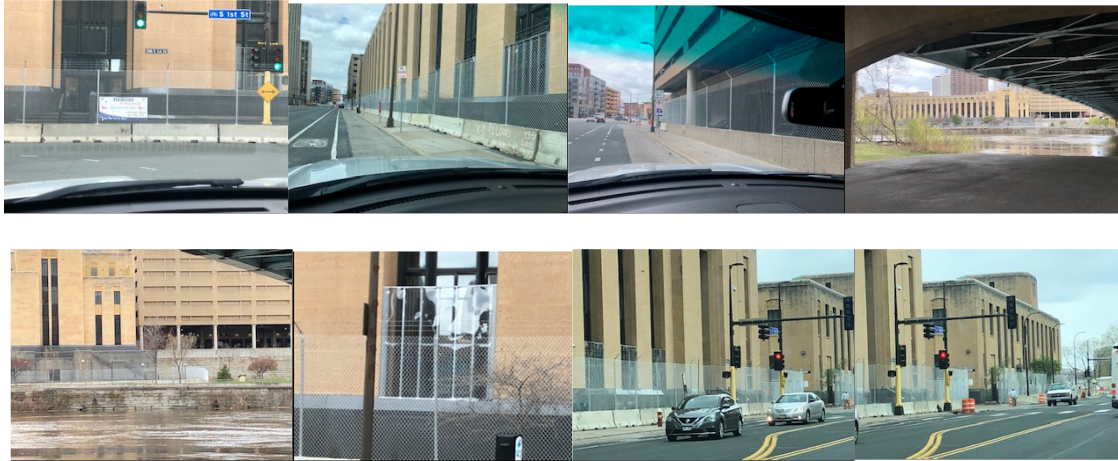

Thanks to all of you for working hard not to let circumstances keep us from serving our customers. We've done it without any employees getting hurt. Let's continue to do that. It's been a phenomenal team effort.

I'm Proud of you all. Tony
